

The Winter Wonderland Light Show Event

BY

Tabitha Wellington

This year Head Start/Early Head Start of Fayette County and ABC School House partnered to offer a parent event for their families. The event was a Winter Wonderland Light Show. It was held on December 20, 2021. We had 41 children and 32 parents from Head Start/Early Head Start and 18 children and 22 parents from ABC School House attend the event. Also, on December 20, 2021 Head Start/Early Head Start of Fayette County held drive-thru light shows at various centers for parents to attend. In this article you can read about the event held at ABC School House where families were invited from the Mount Vernon Head Start, Early Head Start of Mount Vernon, Child Care Partners and families enrolled at the ABC School House child care center.

As the families walked through the light show there were different stops along the way. The first stop was a life size sled that the families could climb in and take a picture. The second stop was characters from the movie Frozen that families could stand behind and place their face in to take a picture. The third stop was the craft station. Here the families received a hot chocolate mug activity to do with the children at home. The fourth stop was the school supplies station. Each child chose from color pencils, dry erase board and markers, workbooks and much more to take home. The fifth stop was the snack station. Each child received a packet of hot chocolate, animal graham crackers and popcorn to take home to eat. The sixth stop was winter lights back drop where families could take a picture in front of. The seventh stop was the book station. Here each child chose a book to take home with them. The eighth stop was gingerbread house and gingerbread man that the children could take picture behind and in front of. The last stop was a winter tree back drop that the families could take a picture in front of. This event may have been on a cold winter night but the smiles were shown though all the children and parents that attended sure made it warm.
