

Exciting news from Step Up to the Trades....

Step Up to the Trades Spring 2022 is in full swing. The participants are taking classes, becoming certified to use Powder Actuated Tools (thanks to ETI), and are involved in hands-on work experiences through G.H. Services.

PA CareerLink Fayette meets with them once a week to teach Career Pathway classes so they are prepared for what comes next in their careers in the trades and in life. They are out and about in the community getting work experience in construction, landscaping, and basic electrical. The participants have been helping remodel a beautiful old estate in Uniontown and cutting grass at local places, like the Bible Baptist Academy.

As the June 10th graduation date is quickly approaching, they are excited to apply what they have learned.

If interested in the program, please contact Kara @ 724 787-1202 or at kannonio@privateindustrycouncil.com
